

# bri-FLEX

**NEW PRODUCT** NOW AVAILABLE from Hill & Smith Ltd.

BRI-FLEX is a double sided system for use in central reservations where there is a demand for high containment. It is a combination of Hill & Smith's existing renowned products FLEXBEAM Untensioned Corrugated Barrier and BRIFEN Wire Rope Safety Fence.

COMBINATION OF

FLEXBEAM

brifen

- Fully tested to EN1317 for UK highways
- Softest impact system - ASI "A" approval
- Cost effective solution
- Low cost installation
- High containment
- Allows weather (snow) and debris to pass through rather than building up on the side of a highway.

**bri-FLEX**
